

Why MEDIEVAL NFT BY CORE?

➡ When we created MNBC, the team was looking for a realistic way to get into the Metaverse. Therefore, we made completely real and timeless vintage art pieces into digital non fungible tokens. MNBC NFT is your entry into a private circle.

How are we different from other NFTs?

➡ See our roadmap section.

Gem What does “MINT” means?

➡ Minting a MNBC NFT means that you are purchasing a digital artwork that becomes part of Ethereum blockchain. Your digital artwork is represented as an NFT, so it can be traded in the market and tracked digitally.

On which network is MNBC?

➡ MNBC will use the Ethereum network, and the collection will be hosted on OpenSea.

When is the mint expected?

➡ The mint is expected to happen at the end of February. You are welcome to join our Discord group, in which we will communicate the exact mint date and other useful details related to MNBC NFT.

How to connect my wallet?

➡ Once your wallet is created, simply click on the button “connect your wallet” on the header and make sure you are on the Ethereum network.

What will be the minting price?

➡ Price will be soon announced, don't miss any updates by joining our Discord.

Why are MNBC NFT 100% safe?

➡ Our smart-contract and minting system will be open-source, audited and secured by a professional and trusted team. To push safety even further, all our team members are identity verified via civic.com.

What is the Metaverse?

➡ The Metaverse refers to a shared virtual experience where land, avatars and names can be bought and sold, often using crypto currencies. MNBC will allow you to join the Metaverse using the assets you own as your digital artwork.
