

# POLYGOTCHI UNIVERSE

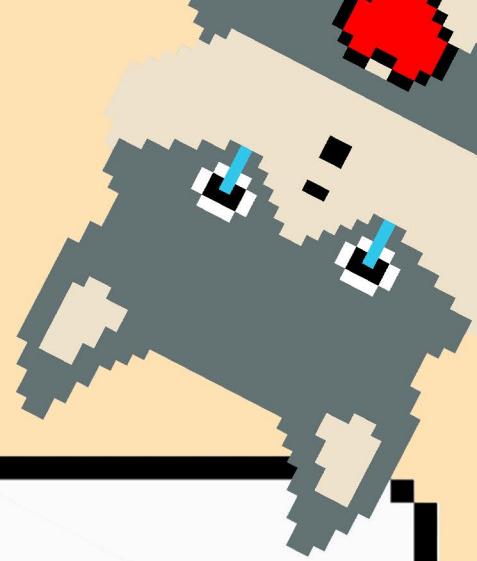

WHITEPAPER

version 1.0 2021

polygon

**Hi there brave NFT collector!  
Welcome to the Polygotchi Universe!! ^^**

**I am a very rare shy dragon also know as #2917**

**As you can see, there are some evil genes  
mixed in my body but you don't have to be  
afraid! Today, I will be your guide <3**

Awww! I've got so much to talk about!!  
Let me just hide a bit here so you can hear everything.  
I will teach you everything you need to know about us!

1. Polyeggs -> Get us from our minting dapp before we hatch!
2. Price pattern -> We reward our early supporters <3
3. Rarity systems -> Each of us is completely unique!
4. Events -> Giveaways / Presale / Public sale / Hatching
5. Roadmap -> This is just a beginning!!

I hope you were already able to get one of our Polyeggs and you're waiting for your first Polygotchi to hatch!  
It can even be me inside of that egg!

Follow me to the next page and I will explain you how it all works.

I'm usually quite shy but I feel so good around you!

# Polyegg

a super limited fun experience!

Polygotchi need some time before they start playing around the Polygon blockchain!

However, you can already own a Polyegg that contains a unique Polygotchi - your Polyegg will wait in your wallet and you can even see it on OpenSea!

You can transfer it to other users or sell it even before they hatch!

Anyone can now buy Polyeggs in our minting dapp!

Make sure that you are on the Polygon (Matic) network and simply connect your wallet and start minting.

Polyeggs cost only 1 MATIC!

Your unique Polygotchi will hatch after public sale starts <3

# Polygotchinomics

## we reward early supporters!

The price of minting will increase with the number of total mints. This pattern is in place not for creatingg a FOMO but as a reward for our community and those who support us from the begginng!

#1	-	#50	Giveaways
#51	-	#100	1 MATIC
#101	-	#200	4 MATIC
#201	-	#1000	8 MATIC
#1001	-	#3500	16 MATIC
#3501	-	#7500	32 MATIC
#7501	-	#9500	64 MATIC
#9501	-	#10000	128 MATIC
